STATE CLEARINGHOUSE

NEWSLETTER

December 1 through 15, 2003

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **December 1 through 15.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Associate Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

DATE: MAY 15, 2003
TO: ALL CEQA LEAD AGENCIES
FROM: TERRY ROBERTS, STATE CLEARINGHOUSE
RE: ACKNOWLEDGEMENT LETTERS FOR CEQA DOCUMENT SUBMITTALS

Due to recent budget cuts we are no longer able to provide written acknowledgement of the receipt of your Environmental Impact Report or Negative Declaration for state review. We will discontinue this service effective June 1, 2003. You may call the State Clearinghouse at (916) 445-0613 to request verbal confirmation, or access that information by visiting our CEQAnet database at www.ceqanet.ca.gov. We apologize for any inconvenience this may cause you.

The State Clearinghouse will continue to provide a closing letter with any state comments on the date following the close of the review period.

ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE 1999 through 2002

KEY:

NOP	Notice of Preparation
EIR	Draft Environmental Impact Report
ND/MND	Negative Declaration/Mitigated Negative Declaration
NOD	Notice of Determination
NOE	Notice of Exemption
EA	Environmental Assessment (federal)
EIS	Environmental Impact Statement (federal)
OTHER	Other types including Final EIRs, Early Consultation, etc.

NOTES:

Percentages in parenthesis indicate the percentage of total documents for calendar year 2002.

There are more Total Documents than Total Projects because there are often multiple environmental documents filed for any individual project.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

No Cases have been selected for the period of December 1-15, 2003.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Monday, December 01, 2003</u>			
1999101054	Copper Hill Homes Project Los Angeles County Department of Regional Planning Santa Clarita--Los Angeles The project consists of a subdivision development of ninety single-family residential lots, one water tank lot, and two open space lots on the approximately 75.72-acre project site. The project also requires a Conditional Use Permit for its development within a hillside management area and a Zone Change from A-1-1 and A-1-1 DP to R-1-7,000.	EIR	01/14/2004
2002091053	Tentative Tract Map Number 16072 Rancho Cucamonga, City of --San Bernardino Proposed subdivision of 150.79 acres of land into 358 lots for future single-family residential development. Minimum lot size is 8,400 SF. The new density of the project is 2.38 DU/AC. The proposed project includes a Tentative Tract Map, a Development Agreement, and annexation to the City of Rancho Cucamonga.	EIR	01/14/2004
2003061128	San Jacinto Street Retail Center San Jacinto, City of San Jacinto--Riverside The San Jacinto Street Retail Center project consists of the construction of a retail shopping center on an approximately 26.099-acre site, after street frontages, dedications; the project site totals 25.46 acres. The center includes approximately 243,000 square feet of retail space comprising a 218,000-square foot major retail store.	EIR	01/14/2004
1994113039	Airport Development Program Oakland, Port of Oakland--Alameda The Airport Development Program (ADP) is a multi-component improvement program designed to relieve existing congestion, inconvenience, and delay at the Airport's passenger and cargo facilities, and to accommodate near-term forecasted passenger and cargo activity. Includes improvements in the following categories: terminal expansion, landside access, airline and airport support facilities, air cargo facility relocation and expansion, and airside facilities.	FIN	
2003031041	The Renaissance Inglewood, City of Inglewood--Los Angeles The proposed project would be located on a 37-acre site south of 90th Street between Carlton Drive and Darby Memorial Park. The project would include approximately 395 single-family residential units, a recreational facility, and a community recreation area to be located within a gated development.	FIN	
2003032131	Lone Tree Way Undercrossing Brentwood, City of --Contra Costa The proposed project involves the construction of a railroad undercrossing at the intersection of Lone Tree Way and Union Pacific Railroad and the expansion of Lone Tree Way from a 2-lane road to a 6-lane road.	FIN

	currently 5,246 dwelling units.		
2003122002	Santa Clara Square PLN2003-04041/SEQ 2003-01015 Santa Clara, City of Santa Clara--Santa Clara Phased development of a mixed use project - Residential & Retail. Demolition of existing 1-story commercial buildings. Construct multi-story structures.	NOP	12/30/2003
2003111137	EA KM 6-03 (Sikander Jassar by Patrick & Henderson) Kern County Planning Department Bakersfield--Kern A change in zone classification of E (5) RS (Estate - 5 acre minimum, Residential Suburban Combining)	Neg	12/30/2003
2003111138	Verizon Wireless, Wireless Communication Plan Inyo County Planning Department --Inyo A wireless comm. plan that includes five existing and operational sites, replacement antennas at an existing line pine site, and five future enhancements sites to be determined as market and business growth demand.	Neg	12/30/2003
2003111139	Somermont View Residential Subdivision San Diego County Department of Planning and Land Use --San Diego The project proposes to subdivide a 3.4-acre property into 16 legal lots. Thirteen of the newly created lots will ultimately support a single-family residence and associated uses. The remaining three lots will include two open space lots and one lot for the project access road. The project proposes to rescind Special Area Regulation H from approx. 1.4 acres of the site and utilize Section 6600 of the County Zoning Ordinance, Planned Development Standards, to implement the project. The private drive will provide access, sewer service, water service and dry utility to the lots.	Neg	12/30/2003
2003121002	Russell Grading Permit B022231-001 San Luis Obispo County --San Luis Obispo A request for a grading permit to allow for the grading of a driveway to accommodate future construction of a single family residence. The project will result in approximately 0.27 acres of site disturbance.	Neg	12/30/2003
2003121003	Morro Bay Shandon State Water Transfer ED02-529 (P855631) San Luis Obispo County Morro Bay--San Luis Obispo The San Luis Obispo County Flood Control and Water Conservation District is proposing to transfer 100 acre feet per year of State Water to the City of Morro Bay. This would increase the City's State Water allocation to a total of 1413 acre feet per year. The project would not require any physical improvements to the any infrastructure. The source of the water allocation is the community of Shandon, which has decided to not use its State Water allocation.	Neg	12/30/2003
2003121004	Pacific Sand & Gravel Concrete Processing and Distribution Facility IS-2003-3 National City National City--San Diego Construction and operation of a concrete processing and distribution facility on a 2.1 acre site at the intersection of McKinley Avenu and W. 12th Street.	Neg	12/30/2003

2003121018	Bethel Road Widening Project ED00-202 (P12A603) San Luis Obispo County --San Luis Obispo The County is proposing to widen a 1,800 ft. segment of Bethel Rd. by up to six feet in order to install Class 2 bike lanes (both sides) between Vineyard Drive and Las Tablas Rd., and to construct a pedestrian pathway on the west side of Bethel Rd. between Templeton Hills Rd. and Las Tablas Rd. in the community of Templeton. The widening requires extending an existing culvert by approx. 20 ft. in a seasonal stream. These improvements will improve the safety of the roadway for bicyclists and pedestrians, and will increase sight distance and safety for all road users. The total area of disturbance is estimated to be 45,000 sq. ft.	Neg	12/31/2003

2003121019	Meadowbrook Villages Escondido, City of Escondido--San Diego The Stewardship Foundation has submitted a Conditional Use Permit for a proposed care facility with 176 units. It is proposed to be a combination of detached units, critical care facility, and Alzheimer's unit. The project will also include improvements to Reidy Creek and North Broadway to address flooding along Broadway. The proposed development consists of 66 semi-independent units, 51 congregate/assisted living units, 29 skilled nursing units and 30 Alzheimer's units with associated public infrastructure improvements such as circulation, franchise utilities, storm drains, and water and sewer lines. Additionally, a small retail facility, community buildings, maintenance structures, and a pedestrian bridge over Reidy Creek are proposed. Existing structures on site include a single-story, single-family residence, and asphalt/gravel driveway. A large rectangular single-story corrugated metal and wood-frame storage barn is currently located north of the existing residence.	Neg	12/31/2003
2003121020	Oxnard Merchant VI Oxnard, City of Oxnard--Ventura Planning and zoning permit No. PZ 03-300-12, a request for a Tentative Parcel Map to subdivide two existing parcels into five parcels and a Development Design Review permit to construct five tilt up industrial buildings. 	18-hole golf course, parks, and open space on a total of 333.8 acres.		
2002121108	Malibu Creek State Park General Plan Los Angeles County Calabasas--Los Angeles The General Plan contains a comprehensive and cohesive set of park-wide and location-specific goals and guidelines for the long-term direction of the Park. Several park management zones are identified in the plan, encompassing the entire Park and providing detailed direction tailored to each of the use and condition characteristics at the Park. The four zones - Core Habitat, Natural Open Space, Cultural/Historic, and Recreation/Operations Zones - provide for high-quality park experiences for visitors while enhancing and preserving the natural and cultural features that make the Park a unique destination. A number of Park improvements are identified in the General Plan's goals and guidelines, including the development of an equestrian campground at Reagan Ranch, establishment of a cultural and historic zone at Sepulveda Adobe and White Oak Farm, development of more centralized visitor use facilities, creation of a new Natural Preserve in Malibu Canyon, and a host of natural and cultural resource management measures for the Park.	EIR	01/16/2004
2003021146	Doheny State Beach General Plan Parks and Recreation, Department of Dana Point, San Clemente--Orange The Doheny State Beach General Plan replaces the existing Resource Management Plan and General Development Plan for Doheny State Beach that was adopted in 1972 and amended in 1982 and serves as a framework to guide the park's day-to-day decisions on park operations and improvements. State Park generals are broad-based policy documents that provide management guidelines for a park by defining a framework for implementing diverse missions of resource stewardship, interpretation, and visitor use and services. The plan defines the purpose, vision, and long-term goals and guidelines for the management of the park.	EIR	01/16/2004
2003081085	Tracy Development Project Rancho Cucamonga, City of Rancho Cucamonga--San Bernardino Tentative Tract Map 14749 to construct 269 homes on 100 acres with 5.8 acres of parkland (2 equestrian-oriented) and 63 acres of floodway open space (East Etiwanda Creek Channel). Project involves amendment to General Plan and Etiwanda North Specific Plan to shift zone boundaries to match creek channel and developable land, and for rezone from Very Low to Low density residential use.	EIR	01/16/2004

<u>Documents Received on Thursday, December 04, 2003</u>			
2003121026	Fashion Walk San Diego, City of --San Diego Planned Commercial Development (PCD) Permit and Resource Protection Ordinance (RPO) Permit to allow for the construction of 181,564 sq. ft. building comprised of 161 condominium units, and attached 89,350 sq. ft. partially subterranean parking garage, and related landscape/hardscape improvements on a 1.8-acre development pad, located at the southwestern section of an 8.0-acre site.	Neg	01/02/2004
2003121027	Otay 980-2 Water Pump Station Otay Water District Chula Vista--San Diego The project involves the construction of a pump station at site adjacent to an existing 30 MG potable water reservoir. The site is within a graded and fenced area around the reservoir that has been prepared for construction, in the proximity of recently completed residences and a proposed Home Depot Store. The pump station will be approximately 80 feet by 80 feet and a single story high.	Neg	01/02/2004
2003121028	Los Berros Creek Bank Stabilization Project ED 02-563 (P12B501) San Luis Obispo County Arroyo Grande--San Luis Obispo The County Public Works Dep. is constructing new left turn lanes on Los Berros Rd. at the intersection with El Campo Rd. One aspect of the road widening requires relocation of a 10-inch oil pipeline. Upon evaluation of the site by the County, it became evident that erosion along Los Berros Creek had exposed the pipeline and was cutting into the area where the widening will take place. The eroded stream bank is approx. 500 ft southeast of the intersection of Los Berros Rd. and El Campo Rd. The County proposes to stabilize the bank in order to allow road widening and pipeline relocation to proceed. Repairing the erosion at Los Berros Creek will entail excavating and filling in the eroded area to provide a uniform slope in order to place rock slope protection (RSP). Once native material is excavated, woven filter fabric will be placed against the slope. Imported rock backing material and RSP fill will and the toe will be covered with excavated native soil. A 4-inch layer of topsoil obtained on site will be placed over the RSP and the slope will then be revegetated with an appropriate seed mix and willow plantings. All staging areas will be outside of the channel. The project will be funded by local roads funds.	Neg	01/02/2004
2003121029	New Chlorination Station at Williams Reservoir and 12-inch Transmission Water Main on Ocean View Blvd. Crescenta Valley County Water District La Canada-Flintridge--Los Angeles The proposed project consists of construction of a new chlorination station structure at Williams Reservoir and a new 12-inch transmission water main on Ocean View Blvd. from Foothill Blvd. to Williams Reservoir (northwest corner of Ocean View Blvd. and Conle Way). The project will include the installation of approx. 1100 linear feet of 12-inch steel water main within the right-of-way of Ocean View Blvd., as well as the addition of the new sodium hypochlorite (liquid bleach) chlorination station structure at the reservoir site. The pipeline and chlorination station structure are located within the City of La Canada Flintridge.	Neg	01/02/2004

2003121032	Lone Hill Lane Tentative Parcel Map Encinitas, City of Encinitas--San Diego The proposed project consists of a Tentative Parcel map application to subdivide 4.64 acres into two residential lots (2.47 acres and 2.17 acres each).	Neg	01/02/2004
2003121033	Jamacha Landfill Bioremediation Pilot Study San Diego County Department of Public Works --San Diego The proposed project is a pilot study to estimate biodegradation rates, and to assess the effectiveness of the technology in improving the ground water quality at the Jamacha Landfill. Groundwater at the Jamacha Landfill contains chlorinated volatile organic compounds (VOC). The reductive dechlorination sequence has been detected in groundwater samples at the site indicating that natural biodegradation is occurring, which is accelerated with the addition of both electron donors and bacteria. The proposed project will consist of injecting a slow release electron donor and bacteria (KB -1) into groundwater wells. The effects will be monitored approximately 30 & 100 feet downgradient. The effects of the bioaugmentation will be monitored by analyzing extracted samples.	Neg	01/02/2004

2003102095	RD 2035 Fish Screen Diversion Project Reclamation District 2035 --Yolo The proposed project/action includes the construction & operation of a 400 cubic feet per second (CFS) land-side pump station & screened intake facility on the west bank of the Sacramento River, just north of I-5 Vietnam Veterans Memorial Bridge. The purpose of the facility is to replace the existing 400 cfs unscreened diversion facility in order to meet anadromous fish regulations while continuing sufficient flows for irrigation & waterfowl management. The existing pump station cannot be retrofitted to meet current fish screen design standards that have been developed by NOAA Fisheries (formerly the National Marine Fisheries Service, 1997) & the California Department of Fish & Game (CDFG, 1997). The new pump station will be sited at RD2035's main canal & will be connected to the new flat-plate screened intake via pipes through the levee. The design of the facility incorporates industry standard design techniques & best management practices for construction activities. The existing pump station structure will be removed &/or demolished & its conduit through the levee will be sealed with concrete.	NOD

2003082049	Entertainment Facility Parking Structure Project Dry Creek Rancheria Band of Pomo Indians Healdsburg--Sonoma The proposed project consists of the construction of a multi-level, multi-pod parking structure and several ground level parking spaces that would serve patrons, service workers and administrative staff of the Casino and other governmental projects. The parking structure would be built on the previously disturbed envelop of the existing Casino and the adjacent Hillside Stabilization Project, which entails the installation of a series of soldier piles and tiebacks to remedy slope stability issues on the steep hillsides next to the Casino. The construction of the parking structure would require a minimal amount of grading for the installation of the building's foundation. It is anticipated that no off-Reservation disposal of graded material would be required as part of the Project. The parking structure would consist of three separate pods that would be connected via several short bridges. Additional ground level parking spaces would be located to the southwest of the existing parking lot.	Oth	12/18/2003

	supportive infrastructure. Grading the site is expected to commence in the spring of 2004. Construction is expected to commence in the summer of 2004. The school will operate on the standard 10-month schedule from approximately mid-August until late May or early June. The school will have primary operating hours between approximately 8:00 A.M. to 3:30 P.M. Estimated enrollment is 600, with approximately 60 employees. The 10.3 acre project is located north of the proposed State Highway 65 Bypass, near the corner of two proposed streets--West Lincoln Parkway and Westwood Boulevard in the southern portion of the City of Lincoln along State Highway 65.		
2003091058	Crandall Creek Restoration Monterey, City of Monterey--Monterey The proposed project would occur in four sections of the Crandall Creek channel and would stabilize the channel to eliminate erosion and hillside movement due to failure at the toe of the slopes. The The first section extends downstream from the endwall of a pipe culvert passing under Crandall Road approximately 30 meters from its intersection with Shady Lane, while the second section extends upstream channel to reduce channel incising and thus stabilize the stream grade. Large woody material that has collapsed over the stream channel and poses a threat of collection debris and backflowing the channel would be removed.	NOD	
2003092054	Lincoln Crossing Village Three Middle School Western Placer Unified School District Lincoln--Placer The Project property will be purchased by the Western Placer Unified School District (District) and school facilities will be constructed and operated by the District and contractors hired by the District. The Project site includes the approximately 18-acre parcel on which school facilities are to be developed. An adjacent City Park is proposed consisting of baseball/softball fields, two football/soccer fields, a running track, tennis courts, and parking--approximately 16.3 acres in size. The school will use the playfields proposed in the City of Lincoln Park adjacent to the school through a sharing arrangement. The environmental impacts of the park development are not assessed in this initial study. The Project involves construction of approximately 98,900 square feet of school buildings. Landscaping will be provided near buildings and along the edges of the Project site and turf will be planted between buildings and in areas of the site not designated for buildings or other facilities. Facilities will be constructed on-site and extended to the site, where necessary. Utilities are planned through the Lincoln Crossing Specific Plan. Roadway lighting, security lighting, and other lighting will be installed. No sports lighting is anticipated. Access points from adjacent planned roadways, parking lots, sidewalks, curbs, gutters, and related improvements are included as a part of the school development Project. Approximately 135 parking spaces are proposed and approx. 72 parking spaces will be available for school overflow parking at the City Park proposed adjacent to the school. Facilities will be constructed on-site to connect with sewer lines along nearby streets. Sewer facilities are planned within the context of the Lincoln Crossing Specific Plan and were considered by the Specific Plan EIR. Storm drainage facilities will be constructed on the Project site to collect and transport runoff associated with the development of this and nearby sites. Stormwater collection and retention facilities are designed at the Specific Plan Area level. The Project will accommodate any portion of the Plan Area stormwater facilities planned to be included on-site. The school will operate on the standard 10-month schedule from approximately	NOD

2001061013	Laval Farms Water Management and Exchange, Including Water Right Applications, and Wheeler Ridge-Maricopa Water Storage District 850 Canal/Reservoir No.1 Pump.. Wheeler Ridge-Maricopa Water Storage District Maricopa--Kern The proposed project contains two components: (a) Laval Farms, the farming subsidiary of Tejon Ranchcorp (TRC), Water Management and Exchange, including water right applications to the SWRCB, and (b) WRMWSD's 850 Canal/Reservoir No. 1 Pump-back. TRC is proposing a long-term Water Management and Exchange to formalize its current and future agricultural water management practices. The Water Management and Exchange consists of two main components: (1) formalizing TRC's present diversions and re-diversions of water from local streams and beneficial uses of this water for agricultural, resource and irrigation purposes, as specified in the SWRCB Applications 30325 to 30329 and 31043 to 31048 and a Memorandum of Understanding between WRMWSD and TRC; and (2) establishing a long-term agreement between TRC and WRMWSD that is similar to WRMWSD's current User Input Program. TRC would construct ten new pipelines and nine new weirs to divert water from local creeks as part of the proposed project. WRMWSD proposes to construct a pump-back facility to pump water from the 850 Canal into Reservoir No. 1 during off-peak energy use hours. The pump-back facility would require the replacement and extension of an existing pipeline and the installation of a new pump station and possibly a hydroelectric generator to produce electricity. 2003101107	Yorba Linda Water District Sewer System Improvements to Support Development of Tracts Nos. 14555, 15566, 16320, and 16321 Yorba Linda Water District Yorba Linda--Orange The project consists of the installation and replacement of several deficient sewer pipeline segments in the vicinity of Imperial Highway and Kellogg Drive. Approximately 10,621 feet of 12" and 15" sewer will be installed within the existing disturbed rights of way.	NOD	
2003101109	Pyrite Creek Sewer Relocation Project Jurupa Community Services District --Riverside The proposed project consists of the installation of approximately 19,500 to 22,250 linear feet of new sewer line and the rehabilitation of 1,400 linear feet of existing sewer line through the utilization of slip-lining techniques within Felspar Street.	NOD	
2003101125	Chrome Crankshaft Removal Action Toxic Substances Control, Department of Bell Gardens--Los Angeles The Dept. of Toxic Substances Control (DTSC) is proposing to approve a draft removal action workplan (RAW) pursuant to authority granted under California Health & Safety Code Chapter 6.8, Division 20. The objective of this removal action (RA) is to clean & demolish & remove a building that has been impacted by past chromium plating activities & to clear the site for further study. The RA is necessary to remove the threat posed by the partially decommissioned plating line & residual hexavalent chromium (CrVI) that remains in the building. By conducting the RA, the threat to human health posed by the building will be removed. Potential downward migration of CRVI due to infiltration of surfact water through the soil beneath the facility will be limited by re-grading & paving the site for improved surface drainage.	NOD	
2003102119	Ramblewood Park Elementary School Franklin-McKinley School District San Jose--Santa Clara The project proposes the construction of a 450-student elementary school in Ramblewood Park in the City of San Jose. It will be joint use facility between the Franklin-McKinley School District and the City of San Jose	NOD

2003128240	<p>Medocino 101 Slope Failure Caltrans #3 --Mendocino</p> <p>The projects purpose is to repair a slope failure using a 3-tiered ground anchor system to stabilize the slide by drilling approximately 240 tiebacks 40 to 70 m into the failed cutslope using 3 parallel benches cut along the contours in the side area. Two rows of tieback on each of the three tiers will be drilled from each bench 20 degrees down angle below the horizontal. The tiebacks will extend into competent material beyond the failure plane and achieve there tensile strength from steel strands grounded into each tiseback hole. The ends of the stresses tiebacks will be "locked off" on a shot Crete waler(concrete block that anchors tieback rods into ground surface), which will be constructed along the full length of the bench.</p> <p>This project will benefit the people of California by maintaining the integrity of this Caltrans facility and reduce the need for future repairs. Actionably, the project repairs will protect the health and safety of the people of California and the visitors to the state.</p>	NOE	
2003128241	<p>Installation of a Multi-Completion Groundwater Monitoring Well Water Resources, Department of --</p> <p>A 1,000 foot depth test hole approximately 6" in diameter will be drilled, geologically logged, a geophysically surveyed. Direct mud-rotary drilling methods will be used to drill test hole. A monitoring well with up to 4 separate completions will be installed after completion of test hole reaming. Wells maybe installed to a maximum depth of 600 feet bgs. The wells will be used to monitor groundwater levels in multiple aquifer zones for comparison to Yuba River and water levels.</p>	NOE	
2003128243	<p>Petition for Extension of Time Water Resources, Department of --Sonoma</p> <p>The petitioner, Ledbetter Farms, Inc., has requested a ten tear extension of time, to implement a water-use monitoring plan. The purpose of the monitoring is to document actual water diversions and use, so as to determine compliance with permit 20459. Such documentation is also necessary for licensing the project. This is an existing project and is located about one and a half miles northwest of the town of Windsor. The diversion works, consisting mainly of an on-stream dam and three underflow wells, have already been completed. Water is being used to irrigate the frost protect 141 acres of vineyard. No additional construction work is anticipated in the implementing the monitoring plan submitted to the Division of Water Rights.</p>	NOE

2000072035	Promenade at Natomas/Sacramento Auto Loop Project Sacramento, City of Sacramento--Sacramento The proposed project proposes to develop approximately 1,255,000 sf of retail and employment center uses on the 126.4 acre site.	EIR	01/28/2004
2002011114	Specific Plan No. 2001-01: North Park Village and Nature Preserve Moorpark, City of Moorpark--Ventura The specific plan project would allow for the development of 1,650 residential dwelling units on 769.7 acres of the 3,586.3 acre site. Other proposed related and supporting uses would include a 5-acre neighborhood commercial center, a 12-acre school site, a 29.1 acre public Youth Sports Park, 3 public parks, 10 private parks, a 52-acre publicly accessible lake, a 1.5-acre fire station site, and a 1.6-acre day care/church site. A 2,121-acre Nature Preserve and 423.4 additional acres of open space are a part of the project proposal. Ancillary land uses would include but are not limited to, water reservoirs detention basins, and a fire service heliport. The Specific Plan project proposes that a new interchange with the SR-118 freeway be constructed about 1 mile east of the Collins Drive interchange. A four-lane arterial roadway would connect the interchange to the Specific Plan site and provide direct access into Moorpark College. The applicant is also seeking annexation of the site into the City of Moorpark.	EIR	01/28/2004
2002061002	Chevron 4H Platform Shell Mounds Disposition California State Lands Commission --Santa Barbara The Program assesses 7 alternatives for final disposition of shell mounds and remnant Hazel caissons, including: dredge mounds, cut caissons, remove materials; level/spread mounds and cut/remove caissons; cap mounds/caissons; build reefs over mounds/caissons; build reef at Hazel site after dredging or leveling/spreading mounds; offsite mitigation; and "No Project Alternative" (do nothing).
